Emergency Preparedness	1	1	10	43	45	1
Alternate Communications	0	2	24	36	29	10
Table top exercises	1	6	25	28	15	26
Facilities and food	1	3	10	49	34	4

1. Do you think the information received today is sufficient to draft a plan for your agency?
[72] Yes [22] No No response [7]

2. Do you think "Value" was added by inter - agency participation (federal, state, and city)?
[97] Yes [0] No No response [4]

3. Was this worth the investment of your day?
[100] Yes [0] No No response [1]

4. Do you feel the training was a good value for the cost?
[99] Yes [0] No No response [2]

5. Is this training something that should be pursued in the future?
[100] Yes [0] No No response [1]

6. Were there topics you would like to see included that were not presented today? If so, please list;

- Yes.
- Info regarding degree programs in Oklahoma for anti terrorism + cyber terrorism.
- This information is of great value and plan to implement this information into our "COOP".
- Probabilities to refine risk assessment.
- Good to have canned exercises + train us up for key functions in the exercise.
- Real and to the point - very good. Need lots more info & meeting with persons at my facility.
- Detailed guidelines and processes for creating IT contingency disaster recovery plans.
- Not yet, but soon.
- Psychological recovery after a disaster.
- None that I can think of.
- Maybe what to do if accosted by a terrorist.

- Local Procedures
- Possibly something from the state emergency preparedness liaison's office about military assistance to civil authorities. It might help to clear up some confusion for those agencies that think the military will "save the day" during an emergency.
- Overall combination of bio with chem + radiological.
- Topics covered were totally adequate.
- Define how to activate each agency in an emergency.
- None.
- Just more of the same - it was all good!
- You need to add training on how to activate the National Guard.
- More planning steps, i.e. analysis, project, disaster, contingency etc.
- BioMetrics.

Other comments:

- Great program
- Need agenda. Documentation should follow along with presentations. Sometimes difficult to hear or see from back of room.
- John Clark was definitely the most informative speaker in my opinion. He definitely has the ability to make you stop and think.
- Very interesting speakers - very informative.
- This was excellent. Many knowledgeable speakers. Many valuable tools were given to get us on the road to a good plan.
- The "red book" generally did not follow the presentations.
- Absolutely fantastic accommodations! Great facility, awesome food!
- Very good info!
- Really enjoyed Clark & Harper's & Jeff's presentations – could listen to these folks for days.
- Very nice job.
- Great speakers - John Clark: David Cid, JW Chalmers. Food was just okay - facility was great! Room a little cold in the a. m.
- Provide slides for all briefings...two were not in handout.
- Facilities were great, the food was bland, very ordinary!
- Fantastic info - great day. Really appreciate it. Dynamic speakers.
- A great combined effort by the different agencies. Invaluable!
- Very good info.
- Great job.
- Excellent - very organized.
- Professional presentations, well organized "way to go OK FEB"
- Excellent speaker and subjects.
- Emergency preparedness session was way too long.
- Did not have slides for all briefings could not always find where hardcopy of the briefing was at.
- Bio (Knowledgeable but poor presentation) But helpful.
- More breaks, seats very hand & uncomfortable. Some sessions much too long.

- Very important.
- Today information and material are a good base for beginning ERP.
- FEMA Portion (COOP) given too quickly - no time to read slides.
- ODCEM too long- last quarter of presentation was relevant information.
- Information presented too fast, skimmed over, didn't get enough info.
- This was very good.
